## 2000

On 13th January I have started to work as a Web designer in EUnet Yugoslavia/Yunet international. During the period of one year I have participated in creation of several Web sites such as:

- **Fest2000**  
(was on the web during the festival only)
- **Ktitor**  
<http://www.ktitor.com>

...and many others that I've designed and developed myself.

- **Ratan Bambus dizajn**  
<http://www.ratan.co.yu>
- **Lion**  
<http://www.lion.co.yu>
- **Schering**  
<http://www.schering.co.yu>
- **041Net**  
<http://www.041Net.co.yu>
- **Cinemaniam 2000**

I have used parts of previous years presentation and their official advertising materials. Presentation was visible on the web during the festival only.

There are also some sites that I've started my work, but weren't finished due to different circumstances:

- **Astra bank**  
(project was in stage of sketches)
- **BK Group**  
(project was in stage of sketches)

During that period I have worked on many press materials for the firm such as: Advertising materials, Brochures, Payment notice, Three kinds of yearly calendars, and one CD Presentation made in Director.

- **Yugoimport SDPR**  
Multimedia CD Presentation made with Macromedia Director 8.0

I have stopped working in EUnet on 31.12.2000

During this period I have worked on few independent projects:

- **Belgrade's city Library**  
(Biblioteka Grada Beograda)  
<http://www.bgb.org.yu>
- **KDE Yugoslavia**  
(redesign)
- **LinuxFEST '00**  
The second LinuxFEST under my and others organization. I was responsible for design and some other visual issues.

## 1999

- **SBCPRN**  
(Zavod za cerebralnu paralizu i razvojnu neurologiju)  
<http://www.sbcprn.org.yu>
- **Prava pomoc/Real help**  
This web page is no longer available on the web, since this organization no longer exists.
- **KDE Yugoslavia**  
This is non profit virtual organization, which I've "founded" with wishes to provide support for KDE users in Yugoslavia, and with intentions to popularize Linux as a serious operating system for server and desktop use. Main project of this organization is to provide fully translated KDE GUI and documentation.
